The watermaster reported Lake Tahoe reached its maximum elevation this year July 1. It was 6,224.90 that date. This compares with the 1961 maximum of 6,224.45 which was reached June 13. The lake elevation was 6,224.64 when the Boca gates were opened.

Boca had 39,907 acre feet of storage when the gates were opened July 31.

HOMEWOOD — Final and complete plans for the Aloha Marlin Party were made on Sunday at a "kick-off" party and meeting for all committees for this affair at the Hauserman residence in Homewood, Sunday, August 12. Latest additions to the entertainment to be offered at this party for the benefit of Corpus Christi Parish in Tahoe City were announced.

Renee Hall, an accomplished Hawaiian dancer, who has appeared at the Pomono Fair, Disneyland and on television, will perform; also Hester Parsons, a resident of Tahiti for 14 years and author of the best-selling "You Could Do It Too," will sing and play authentic island folk rhythms.

On display at the Aloha Marlin Party, which will begin at 3 p. m. on August 12 at the Dan Hauserman home one mile south of Homewood on Lake Tahoe, will be the largest blue marlin ever caught on rod and reel, "Tiny Tim," weighing 1,009 pounds and 15 feet long.

There will be refreshment booths for children and for adults, Hawaiian entertainment, boat rides on the lake, and surprises and fun for all ages. One unusual feature will be a torch-light ceremony, exactly as practiced by ancient Polynesian peoples.

Between 7 and 9 p. m. a delicious buffet dinner will be served, followed by dancing out of doors to the music of a live combo.

Tickets for the Aloha Marlin Party may be obtained after each mass on Sunday at Tahoe City and Squaw Valley, and also at the entrance to the party. Donation requested is $2.50 each, and the location may be found by following the fish signs along Highway 89 south of Tahoe City.

DONNER DOINGS

By MARTHA PANKOKE
Phone LUther 7-3076

Henry J. Celli, Jr., 16, and brother Kenneth D. Celli, 12, swam the width of Donner Lake last week in 25 minutes. Not the record set by our little friend at Tahoe last week, but still quite a fete for two young men not used to the cold, cold water of Donner. This all took place from the dock of Loch Leven Lodge where the two boys have been spending a vacation with their parents from Sacramento.

* * *

Richard Ciandro and Bud Bollock spent the weekend hunting on the Stanley Cliff Ranch at Napa. Dick brought back a beautiful 150 pound forked horn, and Bud . . . oh, well, we won't talk about that.

* * *

The Melvin Pinkhams left this week for their home in Eureka and took with them young Dave Pankoke as their house guest for the rest of the summer. The Pinkhams own the new tourist attraction, the Shipwreck in Eureka, and you can bet Pinky will keep Dave busy feeding the fish.

* * *

Jeepers! what happened to the summer? When the heat has to be turned on already in the mornings now, what kind of a winter are we going to have? Brrr hate to think of that . . . sorry I mentioned it.

* * *

All boat houses on Donner Lake have to go. So anyone thinking of erecting same, please contact Donner Development Company first. Some really are eye-sores on our beautiful lake and am glad, so are many others I have talked to, that they just are not to be.

* * *

Fred and Bertle Woods are spending a month at their lake cabin, and each time one passes their place I am not sure it is for a rest the way they are bustling around fixing this and that. Slow down you two, you make me ashamed.

* * *

Don't know if many of you have had the chance to ride around the other side of the lake recently, but we did and was astounded at the number of new homes going up over there. Some of the men working on those homes must have had steeplejack training the way they are built on the sides of the hills. The new home of Dr. Manwaring of Napa is especially fascinating.

* * *

See the Tom Dolleys sporting a new T-Bird these days and the O'Bears with their pretty new Buick. Must be a trend or something since the Dick Walkers got their new little Volkswagen.

* * *

A meeting of motel and hotel owners of Donner Lake was held Monday night at Donner Lake Lodge. It was presided over by Ivan Tofft who is the director of the recently organized Tahoe-Squaw Valley-Truckee-Donner Convention Bureau. The purpose of the meeting being to acquaint everyone with the idea of the bureau whose headquarters are at the Press Room at Squaw Valley and Public Relations Chairman being Eric Johnson. It was noted we are the hub of all ski facilities but that due to poor advertising we are not taking advantage of all we have to offer. With all the conventions coming to the Squaw Valley area it is possible for Donner to accommodate the bigger portion of people coming in, and with the United Air Lines offering a package deal in their services, being a part of the convention bureau will give every motel owner an equal chance. This group at Donner Lake under Ivan Tofft is trying to re-organize and another meeting will be held Monday, August 20 at Donner Lake Lodge at which time a new name and officers will be the trend of business.

* * *

One bit of "scoop" I got from Carson White Monday, is to me one of the best types of advertising any area such as ours could get. With Sugar Bowl, Inc., and Ed Siegel the Lions Club will be backing a program that will enable 20 or 30 youngsters to get free skiing instructions at the Sugar Bowl on weekends. Many of our talented youngsters are unable to pay for skiing each week and consequently we are not getting all the good talent to the fore. After watching the youngsters the top four will be put on a ski club team and also be in competition with others. This type of program will certainly put the Donner-Truckee area in the ski news.

DIVOT DIGGERS

By BETTY KIELHOFER

Aw-w, come on now. Bob Moore tells me that only 16 men and nine women have qualified for the coming championship tournament. What kind of turnout is this? To all of you that have neglected to qualify, do you want to make it that easy for those who are going to play? There'll be trophies galore and they are a lot easier to win than you might guess. I remember winning my very first one after only playing golf two months, so you see. Remember now. You only have until next Sunday to do it. No excuses about being a beginner, either. With handicaps, they have the best chance of all.—Coming up real soon (I'll let you know definitely in next week's paper) will be our 2nd Annual Invitational. This is a tournament we started last year and plan to have it each year from now on. Everyone from everywhere is invited to enter. We'll have prizes from all local business people and just about everyone wins something. Tentatively, it's set for the 19th of this month so we have much work to do. An entry fee will be set, which will include a bar-b-que and all the trimmings. We had people from all over last year and I would say it was our most successful tournament. SAY, ALL YOU JUNIORS—we plan to have a play-off for you right along with the adults, but if you don't get out there to qualify, there won't be enough entries to make it worthwhile. Urge your friends to do so BY SUNDAY.

Whew. What a busy schedule is lined up. John Firpo says the Auburn Country Club will be here on the 26th so keep that date open on your calendar of events this month. We're also going to work in an 'obstacle' Scotch foursome some Sunday soon . . . Although I've never played this one, it sounds like a ball . . . it seems a 'gimmick' is used on each hole to make it more and more difficult, such as a long stick with a rubber hose attached with which to smack the ball, and perhaps the next fairway set up with certain obstacles which the ball must pass through—silly things like this just to make it more fun . . . absolutely nothing to do with golf, as I under stand it. There'll be prizes for this one, too.

LAST MINUTE BULLETIN. Bob just called to say that the 2nd Annual Invitational will definitely be Sunday, the 19th of August. This should be a real big affair so we'll see you there for sure and bring everyone you know who golfs.

SUMMIT SCENE

By FRAN COUILLARD

Lying behind an earth filled dam, modestly shading itself from public view, shyly and nakedly bathing itself in the rays of the sun, completely minding its own business, and right smack dab in the center of "Summit Scene" lies a little lake known as Van Norden. We live but a stone's throw from this blue mountain "flower" but we have to go upstairs to look down on its hiding place. Its shores, warmed by Mother Sun, are usually noisy with brown mountain children. There are sport loving "locals" who have charted this delightful tarn at its lowest ebb and who know where every old sunken stump or dangerous rock lies. We have glimpsed flying figures and heard rumbling noises which gives us an idea that there just might be water skiing going on over there, too. A few times we saw the wings of sail boat flying. But someone else found Lake Van Norden, too — from the top side.

Meet Jerry Hocking. A handsome 22-year-old lad from South Dakota. Jerry, a paratrooper flew over Lake Van Norden. "Just the place for a free fall" said Jerry to himself. And so peaceful, quiet Lake Van Norden was shocked to receive Jerry and his 'chute. Think this is the first time Lake Van Norden has been so "ruffled" by an event of this sort. We cornered Jerry for a few minutes. "How's it feel up there when we haven't a thing to hang on to except a handful of air?" we asked. "Absolute freedom" — answered this young daredevil. "Well, go on and tell us some more," we fascinatingly begged. So in his own words we learned that Jerry has been doing "sport 'chuting" for five years. That Lake Van Norden initiation was his 100th free fall jump; that the altitude from which he jumped was 5,000 feet; that he "free fell" 3,000 feet in 15 seconds before he opened his 'chute, which, we figure, make a 2,000 point in space over our own lake, that he absolutely "jumps for fun"; that he released himself from his 'chute about three feet over the water (what timing!); that he has accomplished a great many free falls at the south end of the lake; that he truly believes "sport parachuting" will be the nation's younger generations sport. Jerry is a dealer at Cal-Neva in his on terra firma moments and he teaches "free falling" as a side line. He was picked up in a boat on the lake by Bob Maughn, the latter helping him to pull in a 'chute that weighs 140 pounds when wet. "I intend to try this lake again and again," Jerry finished up our interview accordingly. And we hope when he does try it again and again—that he lets us know when it will be so that we can watch that pin speck in the sky grow bigger and bigger as we chew off our finger nails.

* * *

Now this Bob Maughn that we mentioned in the above "thriller" is the son of Cy and Missy Maughn who have Hoyfjellet Lodge down Castle Creek Way Missy and Bob are now wiping their brows as they wave goodbye to another "camp" that we missed in our "Camping Article." Approximately 100 youngsters — both boys and girls — have made Hoyfjellet their "summer home" for a week. This group from four Presbyterian churches in the east bay area (Berkeley, Richmond, Concord, Crockett) must have had the time of their young lives. The average age of the group was 12 years.

We understand that the fine organizing of Bob, Cy and Missy was aided and abetted by the right Rev. Pete Sherrard of the Berkeley contingent. This large group witnessed the sky dive of Jerry's, as explained. There were about 65 of these youngsters that used our modest and shy lake for their amusement, too with a swimming and water skiing program thrown in to boot. The whole setup was a church conference accompanied with outdoor activities galore.

The group hiked to Boreal Ridge where they ate lunch and had a log rolling contest. They found the last patch of snow in these Sierras where a snow ball fight became the high and cold spot of the day. They cooked out. They went horseback riding. Al West gave them a conducted tour through the Central Sierra Snow Laboratory. And inside the structure of the huge and sprawling Hoyfjellet Lodge—there were ping pong games and a real talent show—which the kids put on themselves. They were "escorted" to the area by their individual parents—but a charter bus picked them up — and we finish this as we started—as the tail end of the bus rounded the curve—Cy, Missy and Bob wiped their brows.

* * *

And as you read this the Donner Community Club Barbecue will be behind a closed door of 1962. As we write this it is overcast and threatening. I was just thinking, as the barbecue will be tomorrow —"hope it doesn't rain. And if it did where could we go for shelter and our barbecue?" And the answer came loud and clear—"the snow sheds, of course, you stupid jerk." "Our friendly one" might not like it—but as they are taking off the good old carriers anyway—they would only have to slow down a few loads of freighted fruit to let us enjoy ourselves, huh?

* * *

But—as you read this—The Donner Summit American Legion Post No. 811 still have a wait that will take them to August 25 and 26 for their shindig. We told you once. Beacon Hill Lodge—Saturday the 25th—installation of officers in the Legion room, at 8 p. m. From 10 p. m. on a free buffet in the copper room—and a bit of the twist. Sunday—from two to five the chicken, corn on the cob, watermelon, bar-be-q at the edge of the Beacon Hill swimming pool, so if you want to get your ears buttered from corn chawing, wear your Bikini—or your swimming trunks—and after you are thoroughly buttered you can dive in the pool to wash your face.

* * *

Art (Pop) Couillard makes a dashing trip to San Francisco for the Ice Follies show which he hasn't missed since this extravaganza started, way, way back. Art, who is a routinest, knows exactly on the dot of 8 p. m. every single one of his birthdays, his sister and brother will call him from San Francisco to wish him happy birthday and say "we have tickets for the Ice Follies on such and such a Sunday."

* * *

We note a couple of new station wagons on the hill. Good sign that the strike is really over.

* * *

We get a big bang out of our "sidewalk superintending" these days. The great big rock pile to the left at the entrance to the freeway just beyond Donner Summit Lodge—going west refuses to stay

put when it is drilled and blown up. The only place for it to go is on the new freeway, for the other alternative would be the Friendly One's tracks. So for several days —after we hear the "Fire" whistle blowing—we dash down the road to see another portion of that stubborn piece jump up in the air and land on the new freeway with both feet. Then a "two lane only" sign is put forth whilst the gargantuan stone eaters eat up that portion of the rock pile that has let loose. And we can see this new freeway (Donner Summit Freeway(as we mountaineers know it) grow right under our nose. Guess I should have been of another gender—because these huge machines with their chawing and belching maws, their grinding and "twisting" their shuddering and groaning — really fascinate me. I envy "tin hat" with leather gloves, grimy face rivuleted with sweat, pulling the levers that make the machine obey each grinding order. But I guess they don't need we old gals.

Meet some interesting guardians of the portals. At Rainbow Tavern we introduce you to Max if you haven't met him. If you have met him— this great hulking, affectionate Boxer—you won't be afraid as he greets you at the door. But a prowler and the unwanted—as Esther Heimbach can testify when she was confronted with an undesirable. Being alone in the kitchen and all—naturally she was startled as the screen door opened and a definite "unwanted" entered. But Max, her ever present guardian, was at her side in a second with his hackles aloft. End of prowler.

We come up Forty to Donner Summit Lodge. Meet Lady. A tiny, furry specimen that sleeps in a basket behind the desk — said basket not much larger than a sewing basket. A strange footfall behind that desk and all of Lady's small poundage goes into her warning yap. No matter where "Henry" or George Gangler are—they know when someone puts foot behind a desk that they are not supposed to get behind. Lady is a Toy Pomeranian — weighs about four pounds and begins to count on her pension, being eight years old.

Next — at Beacon Hill Lodge shake hands with Baron. Baron is still young enough to be in the inquisitive stage. A smooth "Greyhoundish" looking mauve colored Weimerhonor (if we spelled it right). We can remember Elmo Moriano (owner) when he said "No dogs in this place"—but Baron is his constant hunting and fishing companion and (contrarily) a present guardian of the portals. Usually Baron stays home in Reno with his mistress—Jeannie Moriano, but, we are sorry to report, Jean has been in the hospital for quite a stretch. We hear, however, that she will return to her home in a few days to convalesce. It's hard to really spot this slick, beautiful creature in the Beacon Hill lobby, however, because he is the exact shade of the furniture's upholstery.

And now we come to "Notchy"—short for Pinnucuo who is the real Boss of this place — the Soda Springs Lodge. This huge over a 100 pounds of Siberian Malamute is over 100 pounds of lovingness. The "mauling" this six year old takes from the kids is terrific. Crawling or tottling babies seem to sense that there isn't a ferocious hair in this dog's huge fur coat. They sit on him, poke into his huge mouth. Being of a dark hue, and prone to lying in shadows to escape heat, he is fallen over, stepped on, tripped over—and nary a growl out of him. However, don't try to dance with Dorothy Cannon, his mistress, unless you ask him first.

* * *

Just heard about another kids camp at Donner Ski Ranch—but time doth run out and most of the sand is in the bottom of the glass. So we'll close. If you want to know why—the "Fire" whistle just blew and I'm on my way to see if that stone mountain is still giving the boys the horse laugh.

Bible stories will be seen as well as heard and the practical application made on each age level. Many new choruses will be learned as well as some of the great hymns of the faith reviewed.

The material used is evangelical and nondenominational, published by Scripture Press which serves many denominations that specialize in teaching the word of God on every age level. There is no charge for this school; an offering will be taken each day for those who wish to give.

Meets at Wyethia Clubhouse,
Sunday School, 9:30 a. m.
Morning Services, 11 a. m.
Wednesday evening meetings will be held the third Wednesday in the month, during June, July and August.

The practical value of striving for perfection will be stressed at Christian Science church services Sunday.

"Spirit" is the subject of the lesson-sermon to be read. It will include this admonition of Christ Jesus (Matthew 5): "Be ye therefore perfect, even as your Father which is in heaven is perfect."

Among the correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following:

"The divine demand, 'Be ye therefore perfect,' is scientific, and the human footsteps leading to perfection are indispensable. Individuals are consistent who, watching and praying, can 'run, and not be weary; . . . walk, and not faint,' who gain good rapidly and hold their position, or attain slowly and yield not to discouragement. God requires perfection, but not until the battle between Spirit and flesh is fought and the victory won" (p. 253).

NEW PARK AREA IS ESTABLISHED FOR PUBLIC AT TAHOE

TAHOE CITY—A new lakefront recreational area for public use has been established near Tahoe City through the courtesy of Sierra Pacific Power Co.

The five-acre area has been leased by the company to the Tahoe City Rotary Club, which will serve as administrators of the recreation site.

Although there was no actual land grant, the lease was obtained at a mere $1 a year for a 15-year period. In addition, the Rotary Club has been given a 15-year renewal option at the end of that time.

Announcement of the lease was made by Fred Fletcher, president of the Sierra Pacific Power Co. The area is to be known as the Charles E. Fletcher Park, a memorial to Fletcher's father.

Charles Fletcher, former general superintendent for Sierra Pacific Power Co., constructed the first power lines from Truckee to the north shore.

The Fletchers have long enjoyed Lake Tahoe as a vacation spot, even back in 1860 when the family lived in Virginia City and journeyed to the lake for family outings.

The five-acre site is located between the Tahoe City "Y" and the Tahoe Tavern on the lake's west shore.

Fletcher said the lease was made because of the "company's interest in Lake Tahoe." In addition to the lease, the company has donated playground.

The first scheduled project is construction of a full-size baseball diamond which is expected to be in use by the start of next year's baseball season.

Future plans for the area include construction of tennis courts and a swimming pool, and establishment of a picnic area.

A seven-man board of directors has been named to administer the park's functions. They are Ralph Bly, president; Bill Bechdolt, vice president; Jim Kornstien, secretary; Herb Clegg, treasurer; and board members Larry Lindsey, Tony Donadio and Bill Conners.

Fletcher, also a Rotarian, is a member of the Reno Rotary Club.

CHANCELLOR MRAK IS TAHOE SPEAKER

TAHOE CITY—Chancellor Emil Mrak, of the University of California, Davis campus, is a visitor this week in the Tahoe area. On Tuesday night, he was the principal speaker at "University Night" at the University of California Alumni Center near Tahoe City where he is a guest.

Dr. Mrak, born in San Francisco and raised in Santa Clara valley, received his B.S., M.S. and Ph.D. at the University of California in Berkeley before he became an instructor in food technology there. He is well-known nationally and internationally for his work on the preservation of foods and is a world authority on the biology of yeasts. In 1957 the Institute of Food Technologists awarded Dr. Mrak the Nicholas Appert medal for his work in the field. He is also co-editor of "Advances in Food Research" and consultant for the Division of Research Grants of the National Institute of Health.

After serving as an instructor at the university, Dr. Mrak became a full professor then head of the department of food technology. In 1959, he became chancellor of the Davis campus of the University of California.

LAS VEGAS MAN HELD ON CAR THEFT COUNT

CRYSTAL BAY—Joseph Michael Polednak, 26, Las Vegas, was released from the Washoe County jail Sunday on $2,075 bail on charges of grand theft and reckless driving.

The dealer was accused of taking a $14,000 car belonging to Marie Wilson, currently appearing at the Crystal Bay Club, from a parking lot and racing down the highway at speeds up to 110 miles an hour. He crashed into a station wagon at the intersection of Highways 27 and 28 and was arrested a short time later.

STATE FAIR TO OPEN IN CAPITAL AUG. 29

SACRAMENTO—(CNS) — From the piles of press releases on editors' desks throughout the state (or in the waste basket), and the increased activity at the California State Fair Grounds in Sacramento, it is evident there will be a California State Fair this year.

In fact, a portion of the fair, the judging of fine California wines, according to the press release, has started already. Judges for several days will sample the entries in the wine show to select the finest and best of California vintage for the gold, silver and bronze medals awarded every year.

The state fair this year will be held August 29 to September 9 at the usual stand on Stockton boulevard. Although propaganda started several years ago for a new fair, and a site was acquired northeast of Sacramento, so far state officials have been unable to activate plans and preparations for the new exposition.

Fair officials have dreamed up a new gimmick to attract the customers this year. This is a marathon bowling tournament, which is sponsored by major alleys in northern and central California. A total of $6,000 in prizes will be awarded at the tournament, which is called the "First Annual California State Fair Masters Invitational Bowling Tournament." In addition, Brunswick Corporation, which is constructing portable alleys, is importing some of the nation's top exhibition bowlers.

As usual, the fair will not neglect its usual attractions.

Boys Questioned

Three teen age boys were being questioned by Sergeant Roy Waters following a burglary at Gateway Cafe and the clouting of a pickup truck parked back of main street. While nothing was missed from the pickup, cigarettes, gum, candy and three kitchen knives were taken from the cafe, Waters was advised by the owner, J. D. Wilkes.

95 PER CENT GRADE NOT GOOD ON ROAD

In school, a mark of 95 per cent or higher is worth a top grade in any examination.

On the highway, that five per cent margin for error may prove fatal.

"Most drivers could honestly answer 'yes' if you asked them if they were safe operators. Most of the time—95 per cent of the time—they are," California Highway Patrol Commissioner Bradford M. Crittenden said.

SUCCESSOR NAMED FOR BILL LA MARR

Patrol Inspector Robert J. O'Brien of Los Angeles was named today to replace the recently retired William LaMarr as chief of the wildlife protection branch, department of fish and game.

A 21 year veteran with the department, O'Brien will make his headquarters in Sacramento.

O'Brien joined the department in 1941 as an assistant fish and game warden at the Yountville game farm.

DISTRICT PLANS

ty Board of Supervisors is part of the division of recreation's program to assist local communities and areas with their recreation problems.

"The development of neighborhood and community recreation areas and facilities and sponsorship of organized recreation programs becomes the responsibility of local government agencies below the county level," Gale said in the report. "And a review and analysis of the present recreation and park opportunities indicates establishment of a park district in the area is both feasible and desirable," he said.

Specifically Gale suggested two neighborhood parks in the North Tahoe area and one community park.

"With no high school facility in the proposed recreation and park district area, there is a great need for the community park which should have such features as turfed athletic field, tennis courts, swimming pool, community center building, and a family picnic area.

"The neighborhood park features should include a playlot and mothers' area, a play area for elementary school-age children, a park-like area for free play, a neighborhood center building, and a family picnic area.

"The above are only standards and guidelines, not recommendations of the specific needs in the district. Each community must consider its own particular needs and interests by taking into consideration existing recreational resources and facilities."

Gale said "the proposed year-round recreation program should include teen-age programs, family recreation activities, a summer playground program, winter sports activities, athletic programs for all ages, after school recreation activities, district-wide special events, day camping, and cultural activities. The full cooperation from all organizations in the area will be necessary to realize the most successful recreation program. The excellent recreation activity program presently provided by the Tahoe-Truckee Unified School District should be continued. Close coordination between the Recreation and Park District and the Tahoe-Truckee Unified School District is essential to assure maximum use of school facilities for recreation purposes and to avoid duplication of recreation activites."

The comprehensive report details facilities now available, state and federal recreation or park areas ,and other recreational opportunities within the general North Tahoe basin.

west of Truckee and the vehicle ran off the highway. Patrolman Carroll Maynard investigated.

Occupants of cars driven by William L. Brackett, Jr., 44, Reno and Terry R. Walker, 18, Truckee, escaped without injuries at 4:40 p. m. Friday when the former turned in front of the Walker car at Donner Memorial State Park. Patrolman Dan Davis cited Brackett.

Two people suffered major injuries Sunday at 2:30 a. m. east of Floriston when a car driven by Paul J. Gutzweiler, 37, Concord, got out of control, went off the road and overturned. The driver and Ernest Lemotta, 48, Lafayette were hospitalized with major injuries. The driver was cited by Patrolman Robert Horton for speeding.

Jan P. Miller, 18, Oakland and Noranell Snowden, 17, Oakland, were injured at 7 a. m. Sunday half a mile north of Squaw Valley road on Route 89 when Miller fell asleep at the wheel and the car ran off the road. Patrolman Hopkins cited the driver.

Samuel Koop, 53, Bakersfield, was cited by Patrolman Hopkins Saturday at 6:45 a. m. on Donner Summit when Koop's car skidded into one driven by Jesse C. Boggs, 24, of San Pablo. No one was injured in the collision.
